IN THE BEGINNING

The Sheaffer Pen Company was founded in 1913 by Walter A. Sheaffer, a jeweler in Fort Madison, Iowa.

Sheaffer was initially interested in developing a pen that could be refilled easily, without the mess and inconvenience of ink bottles. He eventually patented a lever-filling mechanism that allowed users to refill their pens quickly and cleanly.

This innovation helped to establish the Sheaffer Pen Company as a leading manufacturer of fountain pens, and the company continued to develop new designs and technologies over the years.

Sheaffer® 100

SO EASY TO ADMIRE

A smart, timeless choice, Sheaffer 100 makes the right impression at the right price. The subtle cut-out clip adds a nice note of distinction.

WHITE DOT OF DISTINCTION

TOUCHDOWN

In the 1930s, Sheaffer introduced the Touchdown filling system, which allowed users to fill their pens with a single stroke of the plunger. The 1940s saw the company develop the Snorkel filling system, which allowed users to fill their pens from a bottle of ink without having to dip the nib into the inkwell.

BREAKING THE MOLD

Sheaffer's popularity soared even higher during the 1950s and 1960s as the company expanded its product line to include ballpoint pens, rollerball pens and mechanical pencils. Some of the company's most famous products from this era include the Sheaffer PFM (Pen For Men), an oversized pen with an inlaid nib molded directly into the gripping section, and the fashionable Lady Sheaffer, an elegant, clipless pen.

THE ART DECO MOVEMENT

The Art Deco movement was a design style that emerged in the early 20th century and was characterized by its bold geometric shapes, stylized motifs, and streamlined forms. This aesthetic had a significant influence on the Sheaffer, which began producing pens during the height of the Art Deco era.

Sheaffer pens from this period often featured sleek, aerodynamic shapes, with highly polished finishes and decorative elements. Sheaffer's use of Art Deco design elements helped establish the company as a leader in the luxury pen market and several present day collections are still influenced by this iconic design movement.
